SUPPLEMENTARY INFORMATION: MSHA regulations mandate each underground coal mine to have an emergency response plan and refuge alternative(s) to protect miners by providing secure spaces with isolated atmospheres that create life-sustaining environments when escape from a mine during a mine emergency is not possible. See 30 CFR 75.1506(c)(2), 75-1507, and 75-1508(a) and (b). This ICR covers the refuge alternatives portion of emergency response plans and records for training, examination, maintenance, and repair of refuge alternatives and components. This ICR has been classified as a revision under the PRA merely to acknowledge administrative decisions to transfer burden for some information collection requirements to other OMB Control Numbers. The agency has made no changes to the actual requirements.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0146. The current OMB approval is scheduled to expire on April 30, 2012; however, it should be noted that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review.

For additional information, see the related notice published in the Federal Register on January 31, 2012 (77 FR 4834).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within 30 days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should reference OMB Control Number 1219-0146. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Enhance the quality, utility, and clarity of the information to be collected; and
